PROFILE

Software developer and Software Engineering student with experience in C#, ASP.NET Core, Python/Django, and relational databases. I have worked on enterprise applications and client projects, building REST APIs, third-party integrations, and end-to-end web features.

TECHNICAL SKILLS

Languages C#, Python, JavaScript, SQL, Java, C, C++
Technologies ASP.NET Core, Entity Framework, Django, Django REST Framework, React, REST APIs
Data and tools SQL Server, PostgreSQL, SQLite, Git, Docker, Postman, Linux

PROFESSIONAL EXPERIENCE

Software Development Intern — InovenTI

Jun 2026 – Present

- Migrated modules of an enterprise application from .NET Framework to .NET 10, including services, controllers, and web views.
- Built REST APIs and integrated SQL Server using Entity Framework and stored procedures.
- Resolved authentication, dependency injection, and integration issues across the web application, APIs, and database.

Full Stack Developer — IIOX, SIM Management Platform

2025 – Present

- Developed and maintained a production platform for managing SIM cards, users, usage, and subscriptions with Django and PostgreSQL.
- Integrated the 1NCE API and built dashboards and administrative tools for business operations.
- Implemented Mercado Pago account connections through OAuth, along with payment and distributor commission tracking workflows.

Freelance Web Developer

2026 – Present

- Built a responsive public catalog for Alternative Time Co., connected to inventory data and featuring search, product details, and caching.
- Built a service catalog and WhatsApp quotation flow for Barravento, including a cart and service validation rules.

PROJECTS

NetVision Studio — Network Monitoring and Management

GitHub

- Developed Django backend components to receive Syslog events and synchronize Cisco device interfaces and VLANs over SSH.

Saltix — University Attendance and Payroll System

GitHub

- Collaborated on a Django system with modules for users and roles, attendance, incidents, and payroll calculations.

EDUCATION

Universidad Autónoma de Guadalajara (UAG)

Aug 2024 – May 2028

B.S. in Software Engineering and Data Mining

Universidad del Valle de Atemajac (UNIVA)

Aug 2021 – Jun 2024

Technical Diploma in Programming

CERTIFICATIONS AND TRAINING

- Cisco Networking Academy: Python Essentials 1 and 2; JavaScript Essentials 1 and 2
- Cisco Networking Academy: CCNA — Switching, Routing, and Wireless Essentials
- AWS Training & Certification: Cloud Computing Essentials; Amazon RDS for SQL Server Getting Started
- Introduction to Modern AI
